

TalentHook Announces Partnership with cBizSoft.

May 11th, 2007 Las Vegas, NV - TalentHook, a cutting-edge resume spidering technology solution, is proud to announce their partnership with cBizSoft, a leading provider of recruiting software solutions.

This partnership arrives on the heels of a successful product integration which allows both solutions to effectively support the recruiting efforts of their shared clientele. cBizSoft clients can now seamlessly export the details of their Internet candidate search through TalentHook into the cBizOne applicant tracking solution.

Integration with strong recruitment and data management solutions demonstrates a greater commitment to a broad spectrum of customers, according to Phil Gonzalez, CEO of Resource Edge. "Our clients range from corporate recruiting teams to independent staffing consultants to staffing firms of varying size. It's important that our partnerships support and serve each of those groups, so we are always pleased to integrate with the tools that provide dynamic solutions to those specific markets within a larger industry. We're pleased to announce this relationship with cBizSoft because of their consistent emphasis on customer satisfaction and product innovation."

"Talenthook's automated candidate searching paired with cBizOne's leading sales and recruiting functionality provides recruiting firms and corporations a powerful set of tools," says Bob Nelson, Director of Marketing at cBizSoft. "Our partnership and integration with Talenthook fits with our philosophy of integrating best-of-breed products with our recruiting software, cBizOne, to provide our customers with the best solution possible."

About TalentHook

Founded by professional recruiters in 1999, TalentHook has been serving recruiters and resume sourcers for over 7 years with cutting-edge technology and industry-leading support and service. Combining state-of-the-art spidering technology and "in the trenches" understanding of the needs and wants of recruiters and sourcers, TalentHook is one of the premiere recruitment Internet sourcing software packages on the market.
